 **Goals/remit****Goals / remit of the organisation:**

For 2020-2025, EATG's mission is:

Equitable, speedy and sustainable access to:

- effective treatments and holistic care for all people living with HIV
- effective prevention and diagnosis for all communities affected by HIV

EATG has 3 Programme Areas:

- Quality of Life to engage, inform and empower all people living with and affected by HIV in improving their health-related quality of life.
- Combination Prevention to engage, inform and empower all people living with and affected by HIV in increasing the usage of HIV, viral hepatitis, TB and STI combination prevention and diagnostic strategies in affected communities.
- Partners in Science - To engage, inform and empower all people living with and affected by HIV in ensuring that ongoing research continues to yield best quality new HIV, viral hepatitis, TB and STI diagnostics, medicines, medical devices, and care, as well as progress towards cure.

Your organisation is active on the following level(s):

European

 **Specific activities covered by the Register****Main EU legislative proposals or policies targeted:**

- EU Pharmaceutical Strategy - Timely patient access to affordable medicines : consultation on the roadmap and strategy: EATG submission and via European Public Health Alliance as members.
- EU4Health Programme: input into WP 2021 and 2022 via EC webinar and contribution to HIV Outcomes, CSF on HIV,TB and Hep and ACHIEVE Coalition
- Establishment of the European Health Data Space: contribution the debate by the EmERGE closing

meeting (EC funded project), submission to EC consultation, speaker at European Public Health Alliance meeting

- Cancer mission, EU Beating Cancer plan and EU4health WP 2022: input regarding virus caused cancers as EATG and as part of the ACHIEVE coalition for the elimination of viral hepatitis
- EU drug policy strategy and action plan 2021-2025 and action plan: contribution via the EU Civil Society Forum on Drugs
- Proposal for a regulation of the European Parliament and of the Council on the European Union Drugs Agency: contribution via the EU Civil Society Forum on Drugs
- ECDC HIV Dublin monitoring: input to advisory group and EATG/AAE/ECDC survey on stigma
- Regulation (EU) 2017/745 of the European Parliament and of the Council of 5 April 2017 on medical devices: monitor implementation and request for clarifications regarding rapid diagnostic test and use by lay provider

Previous input/submissions:

- COMMISSION STAFF WORKING DOCUMENT SWD(2018) 387 final on Combatting HIV/AIDS, viral hepatitis and tuberculosis in the European Union and neighbouring countries - State of play, policy instruments and good practices
- Submission to EMA Consultation on the Role of big data for evaluation and supervision of medicines in the EU
- submission to EU Drugs Strategy 2013-20 – evaluation consultation(December 2019-Feb 2020);
- submission to EU Drugs Agenda and Action Plan consultation in June-July 2020
- ECDC: Public health guidance on HIV, hepatitis B and C testing in the EU/EEA: input as expert, 2018

Communication activities (events, campaigns, publications, etc.) related to the EU policies above:

EU Civil Society forum on HIV, TB and Hepatitis coordination with AAE, EHRA, Correlations, TBEC. EATG acts as secretariat together with AAE.

HIVACAR: The project aims to change the current paradigm of HIV treatment by obtaining a functional cure for HIV thanks to effectively targeting residual virus replication and viral reservoirs.

EHVA: This project aims: To develop a Multidisciplinary Vaccine Platform (MVP) in the fields of prophylactic and therapeutic HIV vaccines. The MVP includes four components: 1) Discovery, 2) Immune Profiling, 3) Data Management, Integration and Down-Selection, and 4) Clinical Trials.

RBDCOV - RBD Dimer recombinant protein vaccine against SARSCoV2 This project aims to test the efficacy, tolerability and safety of HIPRA's recombinant COVID-19 vaccine in children (including adolescents) and immunocompromised individuals.

EU-PEARL – EU Patient-Centric Clinical Trial Platform - This project has the ambition of transforming the current approach of conducting single-compound clinical trials into the use of cross-company Integrated Research Platforms (IRPs), taking into consideration both patients' interests and the opportunities from novel molecules for addressing medical needs.

EATRIS+ - Flagship in Personalised Medicines - The overarching aim of EATRIS-Plus is to support the long-term sustainability (LTS) of EATRIS by delivering innovative scientific tools to the research community, strengthening the infrastructure's financial model and reinforcing EATRIS leadership in the European Research Area (ERA), particularly in the field of Personalised Medicine (PM) research and development.

PROMs in HIV Research and Development: The purpose of the work is to describe the current use of PROMs in HIV research and development Results were presented and discussed during an EATG-curated session at the EACS 2021 conference.

<https://www.eatg.org/publications/proms-in-hiv-research-and-development-analysis-of-community-needs-and-engagement/>

From March 2020 to January 2021, EATG documented the impact of the disruption caused by the

SARS-COV2 pandemic on people living with or most affected by HIV and solutions found to mitigate it, including at community level. EATG published 6 bulletins, organised mutual learning e-meetings on HIV self-testing, ensuring continuity in sexual health services, COVID-19 vaccines, adaptation of services at community level: <https://linktr.ee/eatgcovid19>

The HIV and Mental Health project aimed to explore the existing knowledge about the interplay of mental health, well-being and HIV and translate it into practical recommendations for both community organisations and healthcare professionals in the European context.
